BANKS SAID TO BE BUYING

Bears Came in and Covered Short Contracts-Dull Tone at the Close.

NEW YORK, February 2.—There was some contraction of the rates of activity in stocks to-day, and resistance to the recent pressure was perceptible, but the tone was feverish and uncertain throughout, as was shown by the constant fluctuations of prices. First prices of the day showed wide declines from last night, and large offerings of various stocks appear. They were taken at the low level, i. i. prices railied. On subsequent deeffective in the same way. This billing was generally credited to banking interests, with the purpose of exercising benevolent control of the market and of opposing the raiding tactics of the bears. Finding obstacles of this character to their efforts to get prices lower, the bears were disposed to cover their short contracts. Most of the losses were recovered under this process. The tone of the market continued feverish up to the closing. The demand did not follow up the advances with eagerness, and the market became dull on the railies.

The reviews of the mercantile agencies were scanned for signs of any reactionary tendency in the business world, but none such were reported. Bank clearings for the week past. The decrease is accounted for mostly in the New York figures, and putside the seven principal cities the clearings show a volume above that of last year.

The bank statement was little regarded, the cash decrease being smaller than was expected and the loan increase causing no surprise, in view of yesterday's sale of New York City bonds and subscriptions during the week to new stock and note issues. Total sales, 424,500 shares.

#### COTTON MARKET.

NEW YORK, February 2.—The cotton market opened steady at an advance of 3@6 points in response to steady cables and a more favorable visible statement than expected. Trading was very quiet after the foll and fluctuations were narrow and irregular, within a range of 2 or 3 points of the opening figures. Private cables from Liverpool reported spinners buyers of both Abe old and new crop months, and it was reported that European trade interests were buying new crops locally on a small scale.

In a Producing Silver Mine!

Don't buy alluring prospects. If a prospect is promising a small fraction of the money spent in advertising the sale of its stock will sink shafts, run drifts and make it a bona-fide producer if it ever can be one.
